Martex® DryFast Sheets

Martex® DryFast Sheets will make your property a leader in environmental sustainability literally overnight. You will see the impact with your first wash and realize how this sheet maximizes your operational efficiencies when you get your first energy bill. Plus, these sheets feel great and make for a great guest experience. DryFast Sheets are available in Fresh White.

Energy/Labor Savings

- Reduces drying time by 30%.
- Reduced cycle times produce higher productivity rate and reduced costs in the laundry system.

Stain Product Recovery

- 25% overall reduction in the number of “re-wash” loads due to stains.
- This reduction resulted in savings of chemicals, labor, and allows more product available to stay in use.
- 25% reduction in pillowcase replacement cost and 9% reduction in replacement sheet costs.

Environmental Impact from Reduced Drying Time

- CO2 Emission reduction of 7.29 kg/day or 2639 kg/year.
- CO2 reduction equivalent to burning 293 gallons less gas per year in a typical car.

Return on Investment: 41.96%

The ROI was calculated as the total annualized savings recorded during our trials divided by the total cost of DryFast product required for the 3-par used in our trials. (Total Annualized Savings/Total Cost of DryFast)
